MERINOS

100% Super Fine Merino

Your merino garment incorporates all the qualities you demand for a multitude of uses: high performance, easy-care, durable, and multi-functional. And uniquely, with all these qualities, Merino is eco-friendly, leaving the lightest of footprints on our planet.

The merino wool in this garment is very fine (18 micron) which means it minimises the 'itch next to the skin' that can be experienced with coarser merino fabrics.
